

Team OCEAN Tours - Adaptations

A **structural adaptation** is something that plants and animals have that help them to survive.

Can you give an example of a structural adaptation for a bird? _____

A **behavioral adaptation** is something plants or animals do to help them survive.

What is an example of a behavioral adaptation for a cat? _____

List the **behavioral and structural adaptations** for animals or plants you observed during your Team OCEAN Tour:

Animal or plant	Structural Adaptation	Behavioral Adaptation
